

Cepilladora Portatil GHO 185-LI S/Bateri

SKU	0601.5B5.0D0-000
EAN	4059952661131

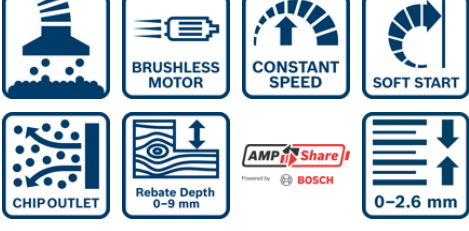

Alcance de la entrega

Guide bracket (1 619 PB4 338)	✓
Dust bag (1 619 PC1 532)	✓
Assembly wrench (1 619 PC1 531)	✓
Carton box	✓

Datos técnicos

Tensión de la batería	18.0 V
Rebating depth	0 – 9 mm
Profundidad de rebaje, hasta	9,0
Profundidad de rebaje, de	0,0
Peso (sin batería)	2,400
Velocidad en vacío	14.000,0
Anchura de cepillado, máx.	82,0
Planing depth	0 – 2.6 mm
Profundidad de cepillado, desde	0,0
Profundidad de cepillado, hasta	2,600
Versión larga parte 1	We developed the GHO 18V-26 Professional planer to ensure perfectly flat surfaces. We achieved this thanks to the high-precision alignment of the aluminium base and the depth adjustment plate. This planer with brushless motor comes with a one-blade head that enables a very fast and easy blade change. Its new-generation Wood Razor blade allows 3 times more cuts before it loses its sharpness, compared to previous Bosch Wood Razor blades. Handling the tool is very convenient and comfortable: thanks to dual chip ejection (left or right), you can use either side to secure the vacuum cleaner hose or eject wood chips.
Versión larga parte 2	The GHO 18V-26 Professional is suitable for adjusting, planing, and flattening wooden beams and other wooden parts. Its main applications are square planing, rebating, door-fitting, and chamfering edges. Your materials are hardwood, soft wood, chipboard, particle board, and MDF. It is compatible with all 82 mm Wood Razor blades, all existing Bosch Professional GHO dust bags, and all Bosch Professional dust extractors via the universal hose sleeve. It is compatible with the Bosch Professional 18V System and with the multi-brand battery alliance AMPShare.
Versión larga parte 3	It has a motor brake that stops the blade drum in less than a second, an increased battery run time thanks to its one-blade head system, and 3 different chamfer grooves. You find an extra blade storage slot in the tool that is already loaded with 1 extra blade in scope of supply. It also comes with a chip bag and a parallel guide. A constant electronic feature maintains the cutting speed when the tool comes under load.
Información adicional versión corta	This tool ensures consistent flatness for better fitting throughout the entire work process thanks to precise engineering. The cordless planer allows for a planing depth of 2.6 mm on any wood material effortlessly. Its output power is similar to corded power. It features improved dust management with dust outlet and dual chipping and an easy blade change without blade alignment to easily get consistent flatness.
Tolerancia K	3,0
Nivel de presión acústica	91,0
Nivel de ruido	The A-rated noise level of the power tool is typically as follows: Sound pressure level 91 dB(A); Sound power level 99 dB(A). Uncertainty K= 3 dB.
Nivel total de vibraciones	1,500 3,500
Versión larga parte 1 (BE)	El GHO 185-LI Professional garantiza una planitud constante para un mejor ajuste en todo el proceso de trabajo gracias a ingeniería precisa. El cepillo inalámbrico permite una profundidad de cepillado de 2,6 mm en cualquier material de madera sin esfuerzo. Su potencia de salida es similar a la de herramientas con cable. Cuenta con una gestión mejorada del polvo con salida de polvo y astillado doble y un cambio de hoja fácil sin alineación para obtener fácilmente una planitud constante.
Nivel de potencia acústica	99,0
Versión larga parte 2 (BE)	El GHO 185-LI Professional es adecuado para cepillar materiales de madera natural y procesada y para eliminar material para crear una superficie plana.
Quantity per pallet	48
Peso neto	3,280 kg
Peso bruto	3,280 kg
País de origen	China

Beneficios del producto

- Ensured consistent flatness in wood surface due to precision engineering design
- Fast blade change without adjustment thanks to dual-blade TC changing system
- Save time and effort with improved dust management and dual chipping
- Similar power performance to corded tools with it’s Bosch Brushless motor
- Working anywhere is easy enjoying cordless freedom
